INSTRUCTIONS

The Ultimate space themed playset with Fundough! Make your own extraterrestrial creatures, planets and stars.

CONTENTS:

- Spaceship cutter - 1 no.
- Rover cutter - 1 no.
- Spaceman cutter - 1 no.
- Star cutter - 1 no.
- Saturn planet cutter - 1 no.
- UFO extruder to be assembled 9 parts (UFO top, Alien head, 4 legs, 3 slides)
- Alien Extruder (Alien body Alien base) - 2 parts.
- Robo dog cutter and stamper. - 1 no.
- Fundough tubs (75g each) - 5 nos.

USING THE CUTTERS:

There are 5 cutters provided in this kit - Spaceship cutter, Rover cutter, Spaceman cutter, Star cutter, and Saturn planet cutter. Take a sizeable ball of dough and lay it flat on the table. Press the cutter against the dough and remove the excess dough from the sides. (Refer Fig. 1)

Fig 1.

USING THE UFO EXTRUDER:

Assemble the UFO extruder by inserting the 4 legs in the given slots. Slide the strip (choose one of the three) on the UFO top making sure the shape you want is in the centre. Take a small ball of dough and insert it into the hole from the top of the UFO. (Refer Fig.2) Now, push the alien head into the dough thereby extruding dough from the bottom of the UFO unit. Add more dough from the top if you need a longer piece. When you are happy with the length, pull out the strip to cut the dough. (Refer Fig. 3)

BACK

USING THE ROBO DOG CUTTER AND STAMPER:

Both the sides of the Robo dog have designs that can be used to create objects with dough. To create the objects, make a ball of suitable sized dough, place and press it evenly on the design you want to make. Remove any excess dough from the sides and use another ball of dough to remove the shape from the mould. (Refer Fig. 4)

The robo dog has a zig-zag cutting wheel which can be used to cut dough whenever needed. (Refer Fig. 5)

The robo dog also has a stamping wheel which leaves an impression behind when rolled over dough. Use this to create fun space themed prints on objects created. (Refer Fig. 6)

Fig 4.

Fig 5.

Fig 6.

USING THE ALIEN EXTRUDER:

The alien extruder has two parts: one body and one base. Place a suitable ball of dough on the alien base and press the alien body over it. Stop when you are satisfied with the length of the alien hair. (Refer Fig. 7).
