- Monkey mould – 1 no.
- Doctor's bag – 1 no.
- Teeth mould – 1 no.
- Extruder – 1 no. (2 parts : body and plunger)
- Toothbrush – 1 no.
- Dough knife – 1 no.
- Inspection mirror – 1 no.
- Tweezer – 1 no.
- Fundough tub – 4 tubs (50g each.)

Moulding shapes with dough (Fig.1):

The doctor's bag, hippopotamus, crocodile, snake and monkey have designs underneath their moulds that can be used to create various shapes with dough. To create the shapes: Make a ball of suitable sized dough, place and press it evenly on the design you want to make. Remove any excess dough from the outer edges of the chosen design. To remove the shaped dough from the design, make another small ball of dough and press it gently against the moulded dough form and lift up. Voila, your design is ready! Use the same technique to create more shapes!

Fig 1.

Extruding the crocodile's tongue (Fig.2):

Close the mouth of the crocodile and place a suitable quantity of dough into the cavity under the crocodile mould. Gently open the crocodile's mouth to extrude dough in the shape of a tongue!

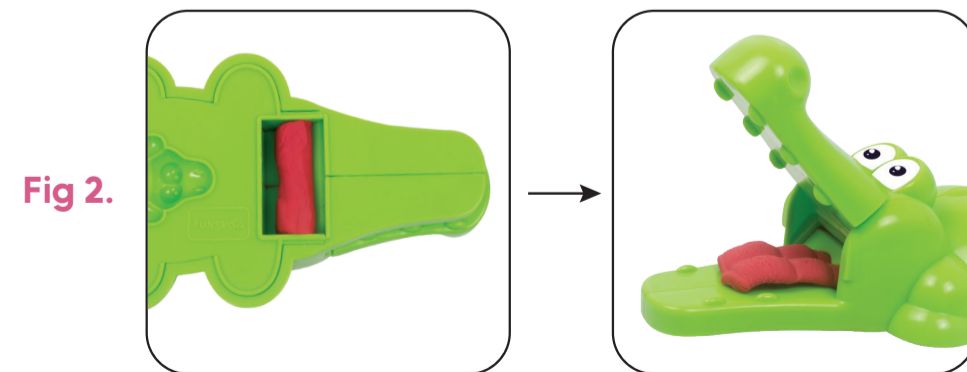

Fig 2.

Making the Hippopotamus's teeth (Fig.3):

Take sufficient quantity of dough and hand roll it into two smooth balls. Insert the dough balls into each half of the teeth mould and flatten the dough into the cavity such that the cavity is filled to the brim. Firmly close the mould till the two halves touch each other. Carefully open the mould and remove the excess dough coming out of the cavity. Your formed shape will be stuck to one half of the mould. Place the dough teeth into your Hippopotamus's mouth with the tweezers!

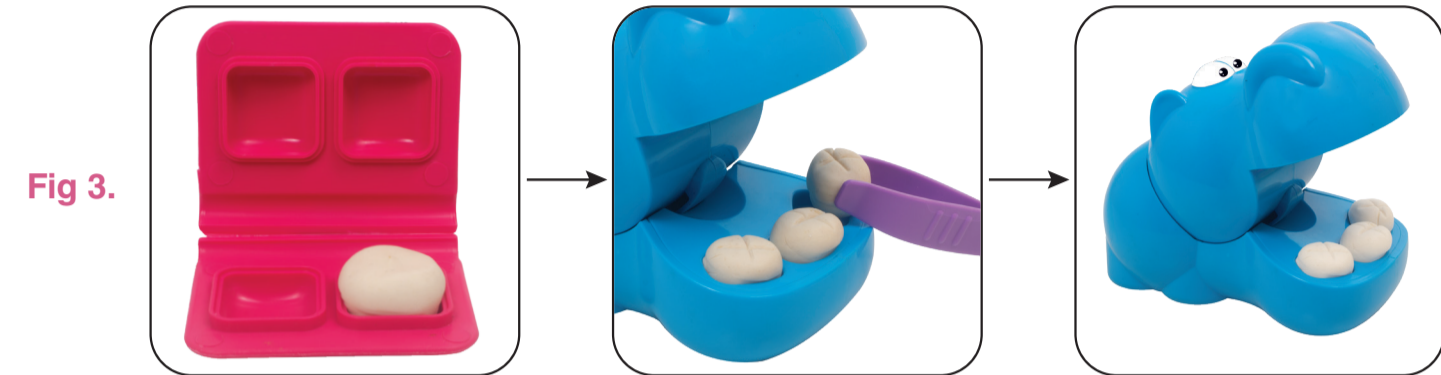

Fig 3.

Making bandages for your animals (Fig.4):

Fill the extruder body with dough and insert the plunger into the extruder. Press the plunger to extrude the dough. Use the dough strips extruded as bandages on your animals!

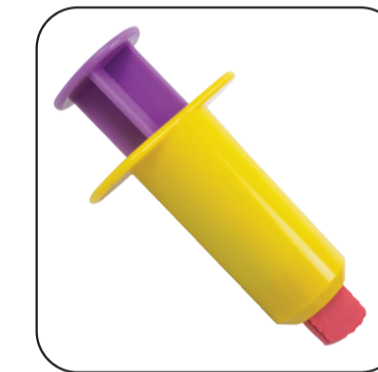

Fig 4.

Using the Doctor's kit (Fig.5):

Use the 4 tools – toothbrush, dough knife, inspection mirror and tweezers to nurse your animals back to health! Store them in the doctor's bag once you are done! With a snap-fit closure, this bag is ideal for on the go fun!
