

# PJ Masks Memory Game Instructions

Ages | 1+  
**3+** players

AN EXCELLENT GAME FOR DEVELOPING  
CONCENTRATION SKILLS

## CONTENTS

72 Picture Cards (36 pairs)

## OBJECT

Find the most pairs of matching picture cards.

## ASSEMBLY

Carefully punch out all the die-cut cards from the cardboard sheets.

## SET UP

1. Mix the cards up and spread them face down on a flat surface.
2. Form 9 rows of cards across and 8 columns down, using all 72 cards. Then without looking, remove one card and set it aside face down out of play. (This will create an odd number of matching pair and reduce the possibility of a tie).
3. For Beginners: Use only 36 (18 pairs) matching cards and form 6 rows across and 6 columns down.

## HERE'S HOW TO PLAY

The youngest player goes first. Players then take turns to the left, turning any two cards picture-side up. The cards must be turned over completely, so that all players can see them.

## A MATCH

A player makes a match if the two cards turned picture-side up are

identical. When a match is made the player takes both cards and places them in front of him/her. That player takes another turn and continues taking turns until he/she misses.

## A MISS

A player misses if the two cards turned picture-side-up are not identical. When a player misses, he/she turns the two cards picture-side-down again, in the same place. That player's turn ends. All players should try to remember which cards were turned over for future matches. The game continues until all possible matches have been made and removed from the playing area. All players then count up their matching pairs.

## WINNING

If you have the most pairs of matching cards, you win!

## SOLO PLAY

This is an excellent practice for developing concentration and memory skills. Just set up the game as described above using any number of pairs and count the number of turns it takes you to match them all. Try to improve with each game you play.

Note: You do not have to remove a card during the game set up for solo play.
